

Now Your Telehealth Visit is Easier and More Secure than Ever Before!

- No need to travel to us
- No taking time off of work
- No need to arrange childcare
- Same great care from YOUR doctor, nurse, clinician, or case manager

Meridian is always looking for new ways to serve you better. We are excited to bring you faster, easier access to treatment, from the comfort of your own home with no physical waiting room, and the latest in encryption technology to ensure your privacy is protected.

How does it work?

You will receive multiple emails and text messages before your appointment, utilizing Mend, with instructions on how to connect to your Telehealth session.

You can connect on any device that has an internet connection, a camera, and a microphone (smartphone, tablet or computer.) Once your provider joins, you're all set and you never have to leave your home or office. Everything is secure using the latest encryption technologies because your privacy is important to us!
